BENJAMIN OPEYEMI ABRAHAM

Aspiring SOC Analyst & Threat Detection Engineer | Millennium Fellow (Class of 2026)

Lagos, Nigeria • +234-9069244034 • oluwafemibenjamin488@gmail.com • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Driven Computer Science undergraduate student specializing in defensive cybersecurity, incident response, and network infrastructure. Hands-on experience architecting SIEM home labs (Wazuh), monitoring enterprise network telemetry, and deploying automated threat detection scripts. Proven ability to evaluate risk postures against NIST CSF and ISO 27001 baseline standards, analyze complex telemetry, and translate technical metrics into clear incident reports. Selected globally as a Millennium Fellow (Class of 2026) by the Millennium Campus Network (MCN) & United Nations Academic Impact (UNAI).

WORK EXPERIENCE & INTERNSHIPS

Cyber Core Associate | Intern — Ubuntu Bridge Initiative (UBI) Cohort 01 *(May 2026 – Aug 2026)*

- Investigated a live network breach simulation from initial telemetry alert to full mitigation, containment, and reporting.
- Performed threat modeling and remediation for critical application security vulnerabilities (XSS, SQLi).
- Evaluated organizational risk postures and baseline security controls against NIST CSF and ISO 27001 standards.
- Documented detailed incident timelines and actionable mitigation reports tailored for technical security leadership.

SIWES Intern — Lagos State University of Education (LASUED) *(Mar 2026 – Aug 2026)*

- Supported campus IT infrastructure maintenance, system baselining, and enterprise hardware/software troubleshooting.
- Developed and deployed relational MySQL solutions to digitize administrative workflows for the SIWES unit.
- Monitored network performance, diagnosed connectivity bottlenecks, and maintained operational technical logs.

Network & Security Bootcamps *(Apr 2025 – Jul 2025)*

- **Google Developer Group LASU 2.0:** Configured network routing, switching, and protocol troubleshooting via Cisco Packet Tracer.
- **DevTown Bootcamp & Cybersecurity For Everyone:** Studied web application security, ethical hacking, and safe cyber hygiene.

LEADERSHIP & GLOBAL FELLOWSHIPS

Millennium Fellow (Class of 2026) — Millennium Campus Network (MCN) & UNAI *(Aug 2026 – Nov 2026)*

- Selected for an internationally competitive fellowship convened by MCN and the United Nations Academic Impact (UNAI).
- Spearheaded a student-led initiative addressing tech access and digital governance, delivering core milestones and impact metrics.

Assistant Team Lead (Registration & Operations) — Tech Wave LASU *(Nov 2026)*

- Coordinated delegate check-ins, registration workflows, and resolved on-ground logistical bottlenecks during the conference.

EDUCATION

Bachelor of Science in Computer Science — Lagos State University (LASU) *(Nov 2023 – Present)*

Relevant Coursework: Data Structures, Operating Systems, Computer Networks, Database Management Systems.

ACHIEVEMENTS & CERTIFICATIONS

- **Google Cybersecurity Professional Certificate** (8-Course Specialization • Coursera)
- **Google Network Security • Google IT Support Professional Specialization**
- **Junior Cybersecurity Analyst Career Path • Network Technician Career Path** (Cisco Networking Academy)
- **Computer Networks Fundamentals** (Udemy)

KEY CYBERSECURITY PROJECTS

SOC Home Lab: Wazuh SIEM & Active Response Defense | *Wazuh, Sysmon, Ubuntu, Kali Linux, Netsh*

- Deployed Wazuh Manager with Windows 11 endpoint telemetry using custom Sysmon XML rules to capture Event ID 1 & 11.
- Engineered automated Active Response scripts neutralizing SMB brute-force attacks (MITRE T1110) via firewall blocks in < 60s.

Go2Cyber Naija CyberShield | *Phishing & Scam Simulator, Public Threat Hub*

- Interactive financial scam simulation platform built for GCAP Cohort 1 Capstone to educate users on real-world fraud vectors.

SIWES Document Tracking System | *MySQL, Database Management System*

- Designed a normalized relational database transitioning LASUED administrative unit from manual paper logs to digital workflows.

Professional SOC Portfolio Website (opeyemiab.github.io) | *HTML5, CSS3, JavaScript, GitHub Pages*

• Custom cybersecurity portfolio showcasing interactive credential verifications, architectural writeups, and live project demos.

TECHNICAL SKILLS

Security Operations & SIEM: Wazuh SIEM, Microsoft Sysmon, Splunk, Elastic Stack, Microsoft Sentinel, TheHive SOAR
Standards & Frameworks: NIST CSF, ISO 27001, MITRE ATT&CK; Framework, CIS Benchmarks, Zero-Trust Architecture
Networking & Security: TCP/IP, OSI Model, DNS, DHCP, NAT, Subnetting, Wireshark, Suricata, Cisco Packet Tracer, Nmap
Operating Systems & Scripting: Linux (Ubuntu Server/Kali), Windows 10/11, Python (Security Scripting), Bash, PowerShell, MySQL, Git
